Elevating Agile Excellence: Inflectra Platform Transforms Safran' Project Management Landscape

inflectra

Safran Federal Systems, a prominent U.S. government entity dedicated a team of 10 software engineers to implement six critical projects, adhering strictly to ITAR regulations.

The Project:

Safran Federal Systems wanted to consolidate its builds and track requirements, while building out an entirely new process.

The Objective:

- To enhance agile capabilities and requirements tracking.
- To transition from a Microsoft Office-based toolset to a more dynamic QA and project management system.

Why Spira by Inflectra?

Safran chose Inflectra's suite of products for their versatility and comprehensive features, including:

- Deployment capabilities in both cloud and on-premise environments
- Enhanced compliance, traceability, and auditability functionalities
- Support for scaled agile methodologies
- Advanced project and risk management
- Robust requirements management
- Cutting-edge test automation and RPA capabilities
- Framework agnostic solutions
